

autism NT

To the Special Education Teacher

There are some great workshops coming to Darwin and Palmerston soon, and thought you would like to know !

Both workshops are for parents and carers of children on the Autism Spectrum both with a formal diagnosis and with autistic traits. This includes sensory processing difficulties, behaviour issues and quirky "traits".

Nelle Francis is for the continuing professional development of staff members as well as parents/carers, and gives an amazing insight into sensory processing and how children are impacted on the Autism Spectrum.

Positive Partnerships free 1 day workshop (parent and carers) - August 9th

- * One day workshop to increase understanding of the impact of Autism both at school and in the home.
- * An opportunity to meet other parents and carers and share strategies and experiences with other parents and carers.

This workshop is FREE for parents and carers.
