

Marshall is wearing the Short sleeve Back Zip Wonsie in navy

"After already purchasing two of these incredible back zip Wonsies, we came back to get two more. Finally a sleep-time outfit that our two-year-old Houdini cannot escape! In our house, we refer to this sleeping outfit as "the ninja". Many thanks!!!!!" - Joann, VA, USA

"A few months ago, I ordered 5 Wonsies for my 12 yr old grand-daughter who has Down's syndrome and is totally non-verbal. We absolutely love this product! It has helped so much to prevent her from putting her hands in her diaper. Thank you so so very much for all you have done. It has truly been a blessing for our family and for her teachers as well." - Tina, NC, USA

"Just wanted to let you know again how thankful I have been that we purchased the Wonsie bodysuits for our son Charlie. He wears them every day underneath his other clothing and in summer we let him wear just the Wonsie and some tight shorts. I'm thankful its stopped him reaching into his nappy and that his teachers haven't had to deal with that." - Nadine, NSW, AUS

"The tummy access Wonsie's are great. I've previously brought your Wonsie's and have had to put a hole in them and stitch it to make an access point for Mauri's g-tube. Having them come already with that access point is brilliant. When I saw them I wondered if they'd be OK because the g-tube is more on the left side of Mauri's body, and the tummy access is centred in the middle. However they work great. The tube sits to the left of the dome closure. I will definitely be ordering more." - Kaye, NZ

"My son landed in hospital yesterday with pneumonia and because of temps he has just been wearing the singlet Wonsie. All the nurses have commented about these wonderful Wonsie's with peg holes. So from the bottom of my heart I would like to thank you and encourage you to keep going. I will certainly be telling people about them. They are amazing." - Jackie, NSW, AUS

"We love the Wonsie! Seppy spends a lot of time in his wheelchair and car seat in the van, so it's nice to know his shirt isn't riding up his back in a wrinkled, uncomfortable mess. Thanks again for making such a thoughtful, useful, and even fashionable bodysuit. These products really do fill a need that many people with a disabled child have. I'll be ordering more soon!" - Joey, NC, USA

"I can't tell you enough how much I love these! They are such a huge help. I don't have to worry about his shirt being bunched up in the back of his wheelchair. I don't have to worry about his back touching the back of his wheelchair if it's especially hot/cold out. His diaper doesn't show, it keeps his diaper in place, it's easy to layer with warm clothing, he can wear his Charley Wrap over it, and I don't have to worry about it riding up." - Tina, TX, USA

"I just wanted to let you know that I love the tummy access Wonsies we bought! The access area in the Wonsie is positioned perfectly on my sons tummy to access his PEG on his stomach and I have found the access to be just the right width too! Perfect all round for us! We will definately be back for more." - Jodie, WA, AUS

"I recently ordered 3 of your Wonsies. I just wanted to let you know that these have been life changing. Our daughter whom is doubly incontinent would rip her nappy off every single night, either wetting her bed or fecal smearing. Since we purchased NOT ONCE has it happened. I cried last night because of how happy we are. Thank you from the bottom of my heart for making such an amazing product." - Kirsten, SA, AUS

"My daughter was just a size 2 when I found your product online. She is now a size 10. Your onesies with a g-tube pocket are by far the most incredibly simple yet practical solution to what could otherwise be a pain to deal with when your child already has so many other needs." - Sibel, ON, CAN

LARGE BODYSUITS FOR KIDS AND ADULTS

www.wonsie.com.au | info@wonsie.com.au
